

TRIBASE

ORGANIC VS. DIGITAL

LIVE DUB & ELECTRONICA

TRIBASE are:

Anthony Hall "Kungfu Ras": singer & MC

Lucian Bucur "Luki": bass & FX

Pau Adell "Inborder Dub": keyboards, live samples & production

Info:

It all started back in 2009 as an experiment, but soon we developed our characteristic "Organic vs. Digital" sound, a mix of dub, live electro and drum&bass, "got serious" and kept recording and playing gigs ever since.

Our debut album "0.1" was released in 2014 and launched at L'Estrany Festival (Banyoles – Girona – Spain)

In 2018 Jamaican MC Kungfu Ras joins the TRIBASE family, giving the project a whole new dimension.

In 2019 drummer David van der Meer leaves the band and TRIBASE changes to an electronic set format.

In 2021 La Panchita Records label publishes "Wicked" EP: <https://www.lapanchitarecords.com/release/tribase-wicked/> with a special vinyl edition: <https://www.lapanchitarecords.com/producte/tribase-selekta-wicked-man-vinil-12/>

In 2022 the single "Loveolution" is released: <https://www.lapanchitarecords.com/release/tribase-loveolution/>

We collaborate with other artists: djs, singers, visual artists. (Zaira Zen, Rebel Brown, Baodub, Nacho Fuertes, Antzoni Rubio, Joël Llauro, DJ Elko, Paula Bam Bam, Payoh Soul Rebel etc.) and stay open to new collaborations.

Ours gigs are an explosion of energy, rhythm and color. During these 15 years we took our live shows to pubs, theaters and festivals all over Spain and Portugal (Rototom Sunsplash, International Dub Gathering, Viña Rock, Freekuency, L'Estrany etc).

TRIBASE supports free culture: we publish all our materials under a Creative Commons license.
